Summary Description

PREMIER BUSINESS WITH ROOM TO GROW – The business is a well established, high visibility health and fitness center in the community in which it resides. It enjoys the competitive advantage of being the only full service fitness center for many miles. As a result there is a large and loyal customer base. It is located in a middle-upper market suburb of a major metropolitan city with easy access via two primary roads very nearby.

Facilities: The Company is in the early phase of a favorably priced, long term and transferable lease.

Competition: No full service competitor within miles.

Growth and Expansion: Other components of its' unique position include room in the business model to expand the services offered without expanding the footprint, while at the same time, the physical footprint could be expanded if so desired.

Support/Training: Owner will be willing to transition based on need and timing.
